# Cultural Week

The week before Independence Day is traditionally known as Cultural Week in which students focus on a particular area to learn about, pray for and celebrate. This year's Cultural Week had a global focus with some classes adopting another country, while other classes adopted a state within India. After spending time learning about their country or state, students had fun dressing up and enjoying yummy food. The week ended with a special time of prayer, in which students prayed for their country/state, along with praying for peace and healing in Manipur.

# Prayer

# Teachers' Day

Teachers felt loved and appreciated on Teachers' Day. This year, Kindergarten had the privilege of escorting teachers to their honoured seats for the school assembly. UKG also performed their Victory Dance. Thank you Teachers for your love and care and for all that you do!

# Grandparents' Day

The Kindergarteners were extremely excited to welcome their grandparents to school for a morning performance that included dances and words of love and encouragement from both students and the principal, Ms. Lovely. After the performance, grandparents enjoyed a game and refreshments.
